

Product Certificate

Jørgen Kruuse A/S hereby declare the following details regarding the mentioned product

Item number

152480..152485

Product name

KRUUSE Supramid suture.

**Product type**

KRUUSE Supramid non absorbable suture, white, in cassette.

It is composed of Polyamide 6.6 strands enclosed in a polyamide sheet. The structure is unique and the smooth surface gives a minimal tissue reaction and decreased incidence of infection and trauma, and the braided structure makes it tie better and makes the suture easy to work with. Indications: ophthalmic surgery, neurosurgery and cardiovascular surgery. EO sterilized.

For veterinary use only.

Material

Polyamide.

Colour

White.

Storage condition

Dry cool place.

Shelf-life

3 years.
