

Product Certificate

Jørgen Kruuse A/S hereby declare the following details regarding the mentioned product.

Catalogue Number

152380...152384

152470...152476

For all item numbers see Appendix 1

Product name

KRUUSE Silk Suture

Product type

KRUUSE Silk is a natural, braided and coated suture. As silk is a natural fiber, more tissue reaction can be expected using this type of suture compared to synthetic sutures.

Natural silk contains two glycoproteins: Fibroin and sericin. Sericin can cause an immune response and is removed from KRUUSE Silk.

Sterilized by ethylene oxide

Do not reuse

Boxes of 18 peel packs.

Cassettes

For veterinary use only

Material

100% fibroin

Size

For all sizes see Appendix 1

Storage condition

Store between 5°C and 25°C

Shelf-life

3 years

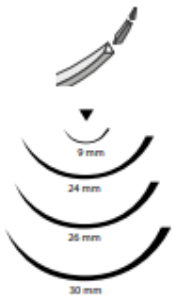

Country of origin

Korea

Appendix 1 – All item numbers and sizes
