

Hot Doll : The 1st sex toy for Dog

Dogs have sexual needs or domination problems which urge them to hump various objects such as cushions, teddy bear, or your own leg and your guest's. Hotdoll is a sextoy designed for dogs which purpose is to control this problem.

Adapted to dog's needs it's easy to teach them to use it as you taught them to go outside for their dejections.

Hot Doll is also a decoration product and an excellent « conversation starter » !

Characteristics

Hot Doll is the first and original sex toy for dog.

Hot Doll has been designed by the french design agency Feel Addicted.

Hot Doll is on TV, books, magazines about design and animals worldwide.

Hot Doll is targeting High class people for this unique product.

We already exposed some prototype Hot Doll on the biggest Design show, in Germany, France and Italy.

Hot Doll is entirely designed and manufactured in France.

Stability, strength, ergonomics, Hotdoll is specially designed for the best comfort of your animal.

The legs' "no slide system" are specially conceived for an extreme adhesion.

The "cone" is made from the same materials used by veterinarians.

The cone's slope allows the liquid to stay in the reservoir, at the end of the cone.

The cone is made of silicone. It can resist to temperatures from -40°C (-40°F) to $+200^{\circ}\text{C}$ ($+392^{\circ}\text{F}$) and offers excellent UV resistance.
